**Speaker:** Dr. Keith V. Krell

**Lecture Topic:** After 40 years, What I know about cracked teeth and vertical root fractures!

**Lecture Outline:** This will be a review of current literature, current treatment and current prognoses about cracked teeth and vertical root fractures.

**Learning Objectives:** At the conclusion of this lecture, the participants should be able to:

1. Define current terminology for longitudinal fractures of teeth.
2. Describe current concepts in fatigue growth and fracture progression.
3. Describe prevalence and incidence of longitudinal fractures.
4. Describe clinical diagnostic features associated with longitudinal fractures.
5. Describe conventional radiographic features and CBCT features seen in images of teeth with fractures.
6. Describe expected treatments and treatment outcomes.

**About the Speaker:** Dr. Krell has been an endodontist for 40 years. He was a full-time educator for 8 years at the University of Iowa and was in private practice in West Des Moines, Iowa for 29 years until he retired December 31, 2017. He is still an adjunct clinical Professor in the department of Endodontics at the University of Iowa College of Dentistry. In 1993, he retired from the United States Army National Guard as a lieutenant colonel after 22 years of service. He is a past president of the American Board of Endodontics, American Association of Endodontists Foundation (now the Foundation for Endodontics) and the American Association of Endodontists. Dr. Krell has been married for 49.75 years to Diane and they have two children and five grandchildren, (all above average!).

**Speaker Disclosure:** In accordance with this policy, Dr. Krell declares to have no past or present proprietary or relevant, financial relationship or receive gifts in kind (including soft intangible remuneration), consulting position or affiliation, or other personal interest of any nature or kind in any product, service, course and/or company, or in any firm beneficially associated therewith.
